## What is the Quality Enhancement Plan?

The Quality Enhancement Plan (QEP) is a program to address student learning or student success. The QEP is an integral component of MSM's reaffirmation process with our accrediting body, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

## What is MSM's QEP?

At MSM, our Quality Enhancement Plan is focused on Interprofessional Education (IPE).

## What is IPE?

Interprofessional Education, or IPE, is when students from two or more professions learn about, from and with each other to enable effective collaboration and improve health outcomes (WHO Study Group on Interprofessional Education and Collaborative Practice, 2010).
